Space saving

Whether you choose round-the-corner sliders or straight sliders, mounted inside or outside the building, sliding doors can offer you a door solution for warehouses, woolsheds, aircraft hangars and heavy industrial applications.

Perfect for situations where space is at a premium, or full height openings are essential.

Key Benefits:

- Space Saving
- Smooth Operation
- Easy integration of Personal Access doors
- Maximum Headroom
- Full Height Opening
- Cost Effective & Simple to Install
- Low Maintenance

Sliding doors are simple to install and can deliver a smooth, simple door solution. Please note, round the corner sliders require inbuilt floor tracks.
